**eMedia Music Releases New Version of *eMedia Intermediate Piano & Keyboard Method*
*Take Your Playing to the Next Level!***

Seattle, WA —April 9, 2013. eMedia Music Corp., publisher of the world's best-selling series of music tutorial software, announces the new *eMedia Intermediate Piano & Keyboard Method v2* software. Author Vadim Ghin holds a Master of Music Degree in Piano from the Juilliard School and has taught extensively at Juilliard, New York University, and the Manhattan School of Music, among others. In over 150 full-screen lessons, he teaches how to improve your playing, gain control of the keyboard, and develop musicianship.

New features for *eMedia Intermediate Piano & Keyboard Method v2* include the interactive Note Tracker and Finger Tracker tools, which listen to and display the note being played as music notation and on an on-screen piano keyboard. Instant Feedback is also included on selected lessons. These interactive features work with both acoustic pianos and electronic keyboards. Also features remastered higher-quality video & audio and fully-scalable lesson screens.

You'll learn to play pieces by famous composers in a broad range of musical styles, from Baroque to the present. You will also develop your musical creativity by learning how to improvise. Alongside conventional scales, chord progressions, and finger techniques, you will learn the blues form, scales, and patterns needed to create your own improvisations and songs. Learn songs and exercises from either the music notation or an animated keyboard that displays fingerings in time with the music. Songs and exercises are enhanced by live-recorded audio, variable-speed MIDI keyboard tracks, and colorful MIDI accompaniments. Selected pieces include orchestral accompaniment and even a jazz band to play along with. You will learn from over 50 popular songs, including classics from artists such as Beethoven, Chopin and Irving Berlin.

eMedia Intermediate Piano & Keyboard Method v2 is available now at retail stores nationwide and online at an estimated retail price of \$59.95. The CD-ROM is a hybrid for both Windows and Macintosh platforms, and the software will also be available for download at emediamusic.com and select online retailers. *eMedia Intermediate Piano & Keyboard Method v2* is also available together with *eMedia Piano & Keyboard Method v3* in a value-priced 2 CD-ROM set, *eMedia Piano & Keyboard Method Deluxe*, which retails for \$99.95.
