eMedia Music to Distribute MagicScore Notation Software

Seattle, WA —March 25, 2015. eMedia Music Corp., publisher of the world's best-selling series of music tutorial software and DVDs announced a new partnership with Maestro Music Software to distribute the *MagicScore* line of music notation software. *MagicScore* is a leading, easy and powerful music notation software. Compose, print, arrange and convert notation to audio with *MagicScore*. Use it to write sheet music, guitar tabs and chord charts. *MagicScore* is the smart choice for musicians, composers, arrangers, teachers, students, choirs, ensembles and songwriters. Included in this new easy-to-use line of notation software are *MagicScore Maestro*, *MagicScore Guitar*, *MagicScore Notation for MS Word*, *MagicScore OneTouch Composer* and *MagicScore School*.

MagicScore Maestro allows you to turn your musical ideas into clean, playable, and easy to read music notation files by using one of the most powerful and customizable music scoring programs on the market today. With *MagicScore Maestro* you can create clean, engraver quality prints of your music with a minimum of effort and time. *MagicScore Maestro* is music notation software with extended editing capabilities. It features a variety of input methods - virtual keyboard, external MIDI devices, or an extended set of musical symbols.

MagicScore Guitar offers everything you need as a guitar player for composing, arranging, creating guitar tabs and practicing. Whether you are seasoned professional, music teacher or a beginner, *MagicScore Guitar* will bring the power of highly sophisticated tab editing and music notation software right to your fingertips.

MagicScore Notation for MS Word combines all of the power and features of the *MagicScore Maestro* software with the convenience of being able to dynamically place music notation into any MS Word document with a single mouse click. With most music notation programs in order to place a score into a word processing document the user must paste an image of the score into it. Once it is there the notes cannot be changed without deleting it and starting over. *MagicScore Notation for MS Word* solves this problem by allowing you to edit the notes on the page simply by clicking on them from within the word processor itself.

MagicScore OneTouch Composer is award winning music composition and music notation software for Windows tablets. The program includes many of the features found in *MagicScore Maestro*. *MagicScore OneTouch Composer* allows musicians to conveniently compose and arrange music on their Windows tablet.

MagicScore School is a special academic edition of the MagicScore music composition and notation software for students, teachers and schools.

With the *MagicScore* line of notation software you'll find solutions that are perfect for you to help you compose, arrange, learn and teach. *MagicScore* is the notation software choice of composers, arrangers, teachers and students, orchestras and choirs. All *MagicScore* products also include the *MagicScore Online* plug-in which makes it easy to publish live playable and printable sheet music online.

The *MagicScore* product line will be made available for download and in retail stores in US and Canada in May 2015.

About eMedia Music

eMedia Music Corporation is a software developer and distributor dedicated to producing high-quality multimedia music instruction software and DVD. Formed in 1994 by Adrian Burton, formerly a manager at Microsoft Multimedia Publishing, eMedia is now the world's leading publisher and distributor of music instruction software and DVD. eMedia's flagship titles are the best-selling eMedia Guitar Method and eMedia Piano & Keyboard Method. In addition to developing music software, eMedia also distributes EarMaster Pro, an ear training software program; Guitar Pro, a popular guitar notation program; PG Music's Band-in-a-Box, an accompaniment program used by musicians and students alike and other leading music software titles.
