**eMedia Music Releases *Singing For Dummies*® Level 2 and Upgraded *Singing For Dummies*®
*The Fast and Easy Way to Learn to Sing!***

Seattle, WA – January 21, 2015, eMedia Music Corp., publisher of the world’s best-selling series of music tutorial software, announces the release of the new *eMedia Singing For Dummies Level 2* and an upgrade to the *eMedia Singing For Dummies* software. The new Performance Evaluation feature in *eMedia Singing For Dummies Level 2* and the upgraded *eMedia Singing For Dummies* software makes learning to sing even easier by showing where you sang flat, sharp, or in tune, and grades your performance for an entire piece.

The *eMedia Singing For Dummies* software is the fun way to learn how to sing or improve your singing. Professional singer and voice teacher Ory Brown, M.M., guides you through more than 80 step-by-step voice lessons. *eMedia Singing For Dummies* also features eMedia’s Interactive Feedback and new Performance Evaluation which makes learning to sing easy as you master over 35 songs including hits from Diana Ross and John Lennon.

eMedia Singing For Dummies Level 2 builds on the lessons found in *eMedia Singing For Dummies* by adding over 90 more singing lessons created by professional voice instructor, Ory Brown, M.M.

These lessons take your singing to a new level by teaching you how to clearly enunciate lyrics, improve vocal tone, sustain notes longer, and sing more expressively. Interactive Feedback listens to you sing using the computer microphone and shows when you are singing a note in tune. Songs include “Imagine” by John Lennon, the opera classic “L’ho Perduta” (the Marriage of Figaro), the “Midnight Special” and others and feature professional piano accompaniment tracks.

Instructor Ory Brown, M.M., has over 25 years of experience as a voice teacher at universities and private schools. She also has a successful singing career, including appearances at Carnegie Hall, Lincoln Center, and on The Late Show with David Letterman.

eMedia Singing For Dummies Level 2 and an upgrade to the *Singing For Dummies Level 1* software will be released in February 2015 and will be available at retail stores nationwide and online at an estimated retail price of \$29.95 each. The software will be a hybrid for both Windows and Macintosh platforms, and the software will also be available for download at emediamusic.com and select online retailers.
