**eMedia Music Releases *eMedia Singing Method* Software
*The Easiest Way to Learn to Sing!***

Seattle, WA —July 8, 2013. eMedia Music Corp., publisher of the world's best-selling series of music tutorial software, announces the release of *eMedia Singing Method*. eMedia's new Interactive Feedback technology is more accurate and sensitive than ever before. It actually listens as you sing and tells you whether you are singing too high, too low, or right in tune. The built-in Performance Evaluation will listen to you sing and give you specific feedback on mistakes, with an overall score for your performance. *eMedia Singing Method* is the easiest way to improve your singing or learn to sing!

Over 230 step-by-step lessons start with basics such as proper singing technique, singing in time, and in tune. Further lessons cover projecting your voice, increasing your range, vocal agility, expression, and sight-reading. *eMedia Singing Method* covers folk, pop, jazz, R&B, opera, classical and showtunes with over 80 songs including hits made famous by John Lennon, David Bowie, Mick Jagger, Diana Ross, and more. Watch the techniques demonstrated in over 30 full-motion videos and animations. Song looping lets you highlight and repeat any section of music you wish to practice. Interactive review and ear-training screens help reinforce new concepts and develop your ear.

Your instructor, Ory Brown, M.M., has over 25 years of teaching and performance experience. Her singing career, including appearances at Carnegie Hall, Lincoln Center, and on the *Late Show with David Letterman*, is combined with her experience as a successful voice teacher at universities and private schools. Private lessons from an instructor of this quality are very costly, so the excellent instruction provided offers exceptional value.

eMedia Singing Method DVD-ROM will be released in July 2013 and be available at stores nationwide and online at an estimated retail price of \$59.95. The DVD-ROM will be a hybrid for both Windows and Macintosh platforms, and the software will also be available for download at eMediaMusic.com and select online retailers.
